

iPhone apps

Agenda

- Audience survey
 - Show of hands: iPhone vs. Android phone
 - On cards write out 5 favorite apps
- How to find / purchase / install iPhone apps
 - Open app store
 - Search for app
 - Select desired app
 - Get (free) or buy
 - Must have password for Apple ID and credit card (can store the billing info)

App categories

- Find iPhone
- Outlook calendar / contacts synchronization
- File management
- Home automation / control
- Finance
- Travel
- Weather
- Geeky

Find iPhone

- Can be used to locate iPhone and iPads of family
- Family sharing; aid in getting together
- Very useful when skiing (or shopping)
- Found wife's iPhone lost in ladies room in Blue Sky basin at Vail. Followed ski patrol progress bringing it out and to patrol headquarters in Vail Operations Building.

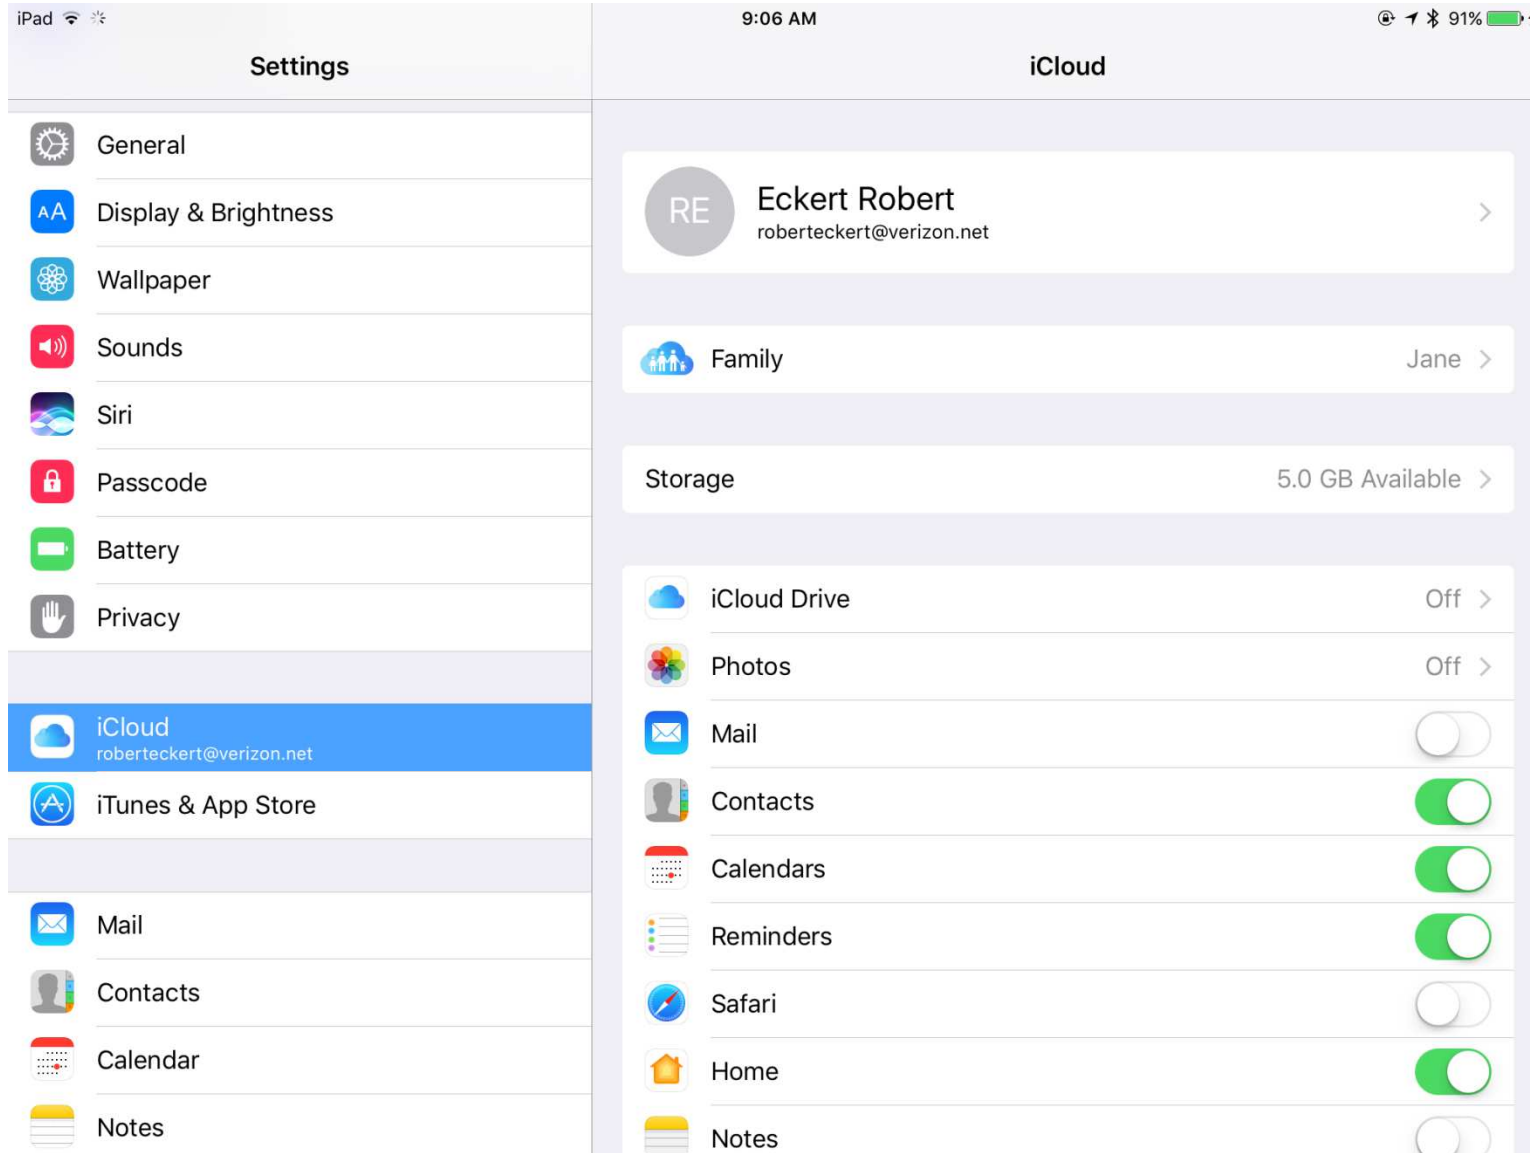

Outlook / iPhone / iPad synchronization

- Why synch?
- Calendar always available and up to date
- Reminders entered on iPhone, iPhone or PC available instantly on all other devices
- New contact entered on any device appears on all other devices.
- NOTE: on PC make sure to enter new contact into iCloud contacts, NOT local contacts
- I have two PC's, my iPhone, and my iPad synched
- Good guide at: <https://technipages.com/iphone-sync-outlook>

Calendar / Contacts synching

- On general principals, Backup Outlook data file before proceeding!
- From the iPhone or iPad, go to “**Settings**” > “**iCloud**” and ensure your iCloud account is setup and signed in.
- [Download and install iCloud](#) on your Windows computer. Be sure to restart the computer after installation.
- Open iCloud on your Windows computer from “**Start**” > “**All Apps**” > “**iCloud**” > “**iCloud**”.
- Check the “**Contacts, Calendars, and Tasks**” option.
- Do NOT need to create an iCloud email address to do the above

PC screenshot

- This shows in all apps, iCloud, iCloud

Will now demo various apps on screen

- PC software is AirServer (\$14.99; 7 day free trial available)
- <https://www.airserver.com/>
- This software is ideal for showing slide shows from an iPad onto a big screen TV connected to the PC

Mapping apps

- Waze
- Google Maps
- Topo Maps
- Colorado Roads (I-70 traffic)
- Altimeter

Weather Apps

- Weather Channel
- Storm (radar images)
- Sunrise & Sunset
- Tides Near Me

Home automation

- Thermostat (Honeywell)
- Nest (Nest thermostat)
- My Accurite (multiple temperature and humidity sensors)
- TCP Lighting (smart bulbs)
 - Issue: Internet connectivity discontinued in May 2016 WITHOUT NOTICE!!

Travel

- Wallet (boarding passes)
- Airline apps
- iTranslate
- Avis
- Sally Park (find your car)
- FlightAware
- Colorado Roads (I-70)
- Gas Buddy (locate cheap gas)

Newspapers

- Boston Globe
- New York Times
- Wall Street Journal
- Etc.

Miscellaneous (and geeky)

- Microsoft Office (Word, Excel, PowerPoint)
- Splash ID (password management, essential)
- Snapseed (basic photo editing)
- File Browser (essential file transfer utility)
- Net Analyzer (networking)
- Garmin Connect (interface with Garmin GPS devices, e.g. Edge 1000 cyclocomputer)
- HP15C (RPN calculator)
